**BVE COMPUTER
 LAB is Now a
 REALITY for All!**
 * * * * *

More than a year ago, room 31 on the 2nd/3rd grade hall of BVE was nothing more than a large teacher work room. It was quickly noted that all the existing space was not being fully utilized in the room, and that we could truly be using the room for something much more important than a copy room with a microwave: a room for *INSTRUCTION!* With this in mind, the PTA, under the leadership of then-president Cindy Bergin, and the school design team created the plans for a much-needed computer lab.

Today, the lab holds 24 student computers, one teacher computer, a large laser printer, and a Promethean interactive whiteboard. Classes have eagerly used the lab each and every day since its unofficial opening last fall. At right, students of Stephanie Briefman work on digital storytelling. **THANK YOU, PTA,** for your wonderful gift to our students!
