

WIKING NEWS

Principal's Notes-

I can't believe the school year is almost over! I want to thank all of the parents and students for a great year at BVMS and remind you that next week, May 11-13, is MCT 2 testing. It is very important that your child get plenty of sleep, a good breakfast, and arrive at school before 8:00 am each morning. Once again, thank you for a wonderful year at BVMS and please encourage your child to do their best each day of testing.

Jonathan Dill
6th Grade Administrator

Dates to Remember.....

- May 11th-13thMCT2 Testing
- May 14thField Day
- May 21stReport Cards/ Last Day of School

Congratulations to our
2010-11 NJHS Inductees

Yearbooks are HERE!!

- For those who purchased a yearbook, we will distribute books during lunch on Tuesday, May 18. We only have a few extra books for sale: those who were not here to order a yearbook will have first choice!! After that, we will sell books on a first come, first served basis.

Don't Forget To Thank Your Mom!!

*Mothers' Day
Is this
Sunday, May 9th*

For all you 8th graders that are currently in Accelerated English, and passing, you will attend Mrs. McIntyre's Honors English class at GHS this coming school year. During your time in this class you will do many projects, many essays, and have a lot of fun! So, if you're slacking off now, I'd change my ways if I were you and settle for a path of success. Now that you have a little background information on this class, I wish you the best of luck, and most of all, have fun!

Get Current!
Yall know by now that staying focused, working hard, and doing the best you can is vital to succeeding in high school. But there is another factor that is important and very helpful during your academic career, staying current. It is crucial to know and understand what is going on in the world around you, locally and globally. Most think that it is not important for younger people to stay current because it may not affect them now, but being updated not only helps you with school, it helps you in life. Being able to discuss, debate and argue issues that are relevant to your well-being is crucial. Issues like the current oil spill, or the different laws Congress is trying to pass right now may seem non important, but they affect yours and everyone else's life. How are you going to form your own opinions and views on issues if you don't even know what's going on? So pick up a newspaper, or turn on the news, and figure out what's happening!

Bayou View MathCounts Teams Places Second in the State of Mississippi!

The Bayou View Middle School 2010 MathCounts team, coached by Ms. Marcelle Patterson, won second place team for the state of Mississippi in this grueling contest of advanced mathematical problem solving skills at the state level MathCounts competition held at Hinds Community College recently in Pearl, Mississippi.

We are very proud of our four Mathletes for their outstanding representation of our school in this prestigious and highly competitive contest. When you see them, please congratulate Alex Bergin, Anton Price, Derrick Anderson, and Luke Haney.

If you are a sixth- or seventh-grader with interested in becoming part of our MathCounts team for next year, please see Ms. Patterson in room 340 or by e-mailing her at marcelle.patterson@gulfportschools.org.

-Ms. Patterson

The end of school is almost here, and it will soon be time to relax and have fun with friends. Even though the end is near, do not be forgetful of what you have learned these past semesters. Have fun but remember to be cautious of the next coming school year.
